AMERICAN BRYCE MILLER COMPLETES JMW MOTORSPORT'S LE MANS LINE-UP

JMW Motorsport are delighted to announce American driver, Bryce Miller will complete the team's driver line-up for the Le Mans, driving alongside Rob Bell (GB) and Tim Sugden (GB).

This will mark Bryce's debut in the prestigious Le Mans race, and will be his second major European appearance. Given his first outing on this side of the Atlantic saw him take a GT2 podium finish in the 2009 24 Hours of Spa, he's more than keen to repeat the feat! Seeing the JMW Motorsport Aston Martin Vantage GT2 as a great opportunity for Le Mans, the Marquis Jet and IPC Information Systems backed driver couldn't choose a more exciting event to show the European audience the pace which has seen him garner success in America. Currently competing in the ALMS, and with additional appearances in the Grand-Am series, 27 year old Bryce has been a podium visitor over 22 times in his last four years of sportscar racing.

Team Principal, Jim McWhirter looks forward to welcoming the American hotshoe to the team for Le Mans. *"I am delighted Bryce will join us for Le Mans where I am sure he will be a great asset to the team. He has shown great ability so far in his career and his enthusiasm was clear when he came to test for us; he is very much in the JMW Motorsport mould!"*

"Bryce is a very determined and talented young driver" said Tim Sugden, on JMW's newest recruit. *"I know the ambition he will bring with him marries perfectly to that of JMW Motorsport. Bryce will be a great addition to this chapter of JMW's season. The team are very focused on the challenge of Le Mans and to show the world just what the Aston Martin is capable of"*.

Bryce Miller was equally pleased to join the JMW Aston Martin for the most prestigious sportscar race in the world, adding *"I am thrilled at the opportunity to compete at Le Mans with JMW Motorsport and Aston Martin. The team has championship winning experience and a tremendous appetite to win, something clearly evidenced in the short time I spent meeting and working with crew members and Dunlop during my test"*.

The 24 Hours of Le Mans takes place on 12-13 June 2010.
